For tax year 2002 filed in 2003, 2,181,654 returns have been filed a 1.2% increase over filings in November 2002 for tax year 2001.

Year-Over-Year Comparison of Resident Taxpayers

Comparisons of Federal Adjusted Gross Income (FAGI) and tax liability growth between two tax years can be made by using data from taxpayers who have filed for both calendar years and have maintained the same filing status for both years. The Department of Revenue has received 1,557,359 returns in calendar year 2003 for tax year 2002 from filers who also have returns on record from calendar year 2002 with the same marital status. On average, these filers experienced a 1.5% decrease in FAGI and a 3.8% decrease in tax liability. More specifically, 40.7% of these filers experienced a decrease in tax liability; on average a decrease of 40.7% with a corresponding average decrease in FAGI of 24.4%. Filers with an increase in tax liability totaled 727,838 or 46.7% with an average FAGI increase of 25.8% and an average tax liability increase of 48.9%.

"New" Filers in Calendar Year 2003

Table 1 attached to this report, presents the number of "new" returns filed in calendar year 2003. "New" returns are for those filers who did not file in the previous calendar year. Therefore, these filers could be new full-year residents of Arizona, or they may be newly required to file an individual income tax return. (The filer may not have earned enough income in the previous year to file, such as a recent graduate just entering the work force.) The table indicates that 219,589 "new" returns have been filed thus far in 2003, representing approximately 267,030 persons, not including dependents. The average Federal Adjusted Gross Income for these 219,589 returns is \$20,253, with an average tax liability of \$329. The right half of this table presents characteristics of the filers represented on the returns. Of all "new" returns, 20.2% had a married filing joint filing status, 7.6% claimed a 65 and Over Exemption and 34.7% claimed dependents.

Individual Income Tax Estimated Payments

Taxpayers are required to make estimated payments if their Arizona gross income will exceed \$75,000, in an amount which will represent unpaid tax liability at the end of the taxpayer's tax year. Total estimated payments paid with form 140ES for tax year 2001 was \$336.5 million, for an average of \$1,480. An additional \$67.7 million in estimated payments came from 2000 tax returns that applied their refunds as a 2001 estimated payment, for an average of \$1,817. Estimated payments received through November 2003 for tax year 2002 were as follows:

11/03	140ES payment	\$434,838	Cumulative	\$295,216,634
11/02	140ES payment	\$71,637	Cumulative	\$336,410,946

Withholding

Withholding payments are received from employers and applied towards a specific quarter for the designated year. Information is gathered for 15 months for any given quarter. For example, from January 2001 through March 2003, \$544,701,458 was received for the first quarter of 2002. The latest complete quarter (15 months of information has been compiled) is the third quarter of 2002, which shows a decrease of 4.9% in withholding payments over the third quarter of 2001. Growth in quarters for which information is still being gathered is as follows:

4 th Quarter 2002	(1.6%)	3 rd Quarter 2003	0.2%
1 st Quarter 2003	2.9%	4 th Quarter 2003	1.6%
2 nd Quarter 2003	2.7%		

The comparisons made above were against the same number of months of collections in the previous year. Effective January 2002, current choices for withholding are 0%, 10%, 18%, 21%, 23%, 29% or 34% as the percent of federal taxes to be withheld for state taxes. The 0% option is only available to those individuals who had no liability in the prior tax year and expect no tax liability for the current year.

Property Tax Credits

Arizona allows a refundable property tax credit for those who are age 65 or older or who received Title 16, SSI payments and pay property tax on a home. To qualify for this credit, household income must be below \$3,751 for individuals that live alone, or \$5,501 for those that live with others. The maximum credit is \$502.

Corporate refunds paid in any state fiscal year are for a mixture of corporate fiscal years. The table below presents the percent of refunds paid in FY 2002/03 by corporate fiscal year. For example, in FY 2002/03, 7.0% of the refund dollars paid were for corporate fiscal years ending in 1998 or before. The percentages are for refunds paid through the fiscal year.

%	0.3	33.9	54.5	0.3	11.0

The figures shown above for the 2002 returns are most meaningful when compared to 2001 returns received during the same period of time in the previous year. Through November 2002, the Arizona Department of Revenue received 93,409 documents with a fiscal year-end of 2001. Compared to 2002 documents, this represents a 2.3% increase in the number of corporate returns received at this point of time in the calendar year.

Urban Revenue Sharing Returned to Cities/Towns

Incorporated cities and towns receive a share of net individual and corporate income tax collections, called Urban Revenue Sharing. The amount of money to be distributed during Fiscal Year 2003/04 is 14.8% of net proceeds from Fiscal Year 2001/02 income tax. In addition, 15% of the amount of monies transferred from the Budget Stabilization Fund to the tax refund account of the state general fund is also be used for Urban Revenue Sharing. Amounts returned for November 2003 are shown on Table 2, at the end of this report.

TRANSACTION PRIVILEGE, SEVERANCE AND USE TAXES

Transaction Privilege, Severance and Use Tax Receipts

The Arizona transaction privilege and severance tax consists of many classifications of tax. These classifications include but are not limited to retail, contracting, amusements, restaurants and bars, hotel/motel and mining severance tax. The collections for all such categories are divided, per statute, into two parts. One part is called distribution base; the other part is known as non-shared. The division of collections into these two parts varies from category to category. For example, retail sales tax is 40% distribution base and 60% non-shared. In contrast, contracting is 20% distribution base and 80% non-shared. Use tax is 100% non-shared.

At the close of each month, the computer aggregates transaction privilege and severance tax collections by category and calculates total distribution base and non-shared portions. The amount shown as "Use Tax" in the table below includes use tax, use inventory tax and jet fuel use tax. Education tax is in accordance with prop 301 resulting in an additional 0.6% education tax being added to most business classifications. The "Other Revenue" category includes county excise, road, jail and hospital taxes and various other excise taxes, such as the 911 excise tax.

Distribution of Transaction Privilege, Severance and Use Tax Receipts

Of the distribution base portion of transaction privilege and severance taxes, described above, 25% is returned to incorporated cities/towns, 40.51% is returned to counties and 34.49% goes to the state general fund with the exception of mining severance tax. All of the non-shared revenue and use tax is deposited into the general fund. Therefore, the "Retained By State" figure presented below includes all non-shared portion of transaction privilege tax, use tax and 34.49% of the distribution base collections. The education tax is distributed in accordance with prop 301. "Other" revenues are returned to the administering authority.

Telecommunications Devices, 911 Excise and 911 Wireless Service classifications previously listed in the collections table are not elements of calculated taxable income and therefore, are not included in the above table. The Use/Use Inventory category shown above does not include jet fuel use tax. Since the jet fuel use tax is a gallonage tax, this too can not be computed as taxable income. A comparison can be made of gallons of jet fuel on which Arizona jet fuel tax or jet fuel use tax was paid. In November 2003, 10,209,687 gallons of jet fuel were taxed, a 12.8% decrease from the 11,707,458 reported for November 2002. Timber Severance includes only sales subject to a repealed rate. The current tax is per board feet upon which taxable income cannot be computed.

Accounting Credit

Effective to taxable periods beginning from and after July 1, 1995, a credit equal to one percent of the amount of tax due, up to \$10,000 per calendar year, is allowed to businesses for expenses incurred during the accounting and reporting of Transaction Privilege Tax. The amount of accounting credits claimed in November 2003 was \$1,285,153 a 5.4% increase from the \$1,218,737 claimed in November 2002. Accounting credits claimed-to-date in FY 2003/04 equals \$6,954,329 a 5.1% increase from the \$6,615,010 claimed during the same period in FY 2002/03.

¹These Taxable Sales figures are calculated on a per return basis, by taking collections and dividing them by the appropriate tax rate. These figures may not match other Taxable Sales figures calculated on the aggregate.

Taxable Sales by SIC Code Range

The taxable sales by SIC (Standard Industrial Classification) Code ranges are an indicator of business occurring for that type of retail sale. Certain limitations must be understood when using this information.

The Department of Revenue assigns a SIC code to a business based on its primary type of business activity. A grocery store would be assigned a SIC code of 5411. A business that deals primarily with dairy products would have a SIC code of 5451. A problem arises with businesses which derive revenue from multiple business activities. For example, a store like Fry's Market Place might be considered both a grocery store and a department store; however, all revenue would be reported under only one of the two possible codes. In summary, an accurate description of what this information represents would be: "These figures represent taxable retail sales for those businesses which have a primary SIC code falling within one designated range."

If the taxable sales for these ranges were added together, the total would not equal retail taxable sales. This is again due to the primary SIC code assignment. There are businesses making retail sales, which do not have a primary retail SIC code.

Transaction Privilege and Severance Tax Returned to Cities/Towns

The portion of transaction privilege and severance tax returned to each incorporated city or town for November 2003 is shown on Table 3, attached to this report.

County Tax Collections

The following county-imposed tax collections were received by the Department of Revenue during September 2003 and returned to the counties. County taxes in all but Coconino County are imposed at 10% of the state transaction privilege tax rate. Coconino's Excise Tax is 10% of the state rate, and its Jail Tax is 6% of the state rate. The stadium tax was imposed at 5% of the state rate. This rate completed its run in December 1997. Collections received now should be for prior periods. The rental car surcharge in Maricopa County is \$2.50 per car and in Pima County is \$3.50 per car. The RV Surcharge is \$0.50/day on each lease or rental of a parking space for recreational vehicles.
